DYNATRONICS ANNOUNCES \$250,000 INCREASE IN STOCK BUYBACK PROGRAM

Dynatronics to Repurchase Up to \$250,000 of the Company's Common Stock

Salt Lake City, Utah – December 4, 2007 – Dynatronics Corporation (NASDAQ: DYNT) today announced that its board of directors has increased its open market share repurchase program of the company's common stock by \$250,000.

“This decision reflects the confidence of management and our board of directors in the future of the company and our commitment to increasing shareholder value,” said Kelvyn H. Cullimore, president of Dynatronics. “At the current price, we feel the stock is undervalued and the repurchase of shares represents an appropriate use of our resources at this time.”

Dynatronics expects to make the discretionary purchases with cash from operations and amounts available under its line of credit. Currently, increased borrowings would be required to complete the full repurchase program. At the present price of \$1.13 per share, the full repurchase would comprise approximately 221,000 shares of stock, or approximately 2 percent of the company's issued and outstanding shares. The purchases will be made at the discretion of management over an indefinite period and the program can be terminated at any time. The company is not obligated to make any purchases under the plan.

Dynatronics manufactures, markets and distributes advanced-technology medical devices, orthopedic soft goods and supplies, treatment tables and rehabilitation equipment for the physical therapy, pain management, sports medicine, chiropractic, podiatry, plastic surgery, dermatology and other medical, cosmetic and aesthetic markets.
